

Equality In Action

Equality means everyone deserves the same respect, opportunities, and rights regardless of their differences.

Differences We Respect

Write which difference is being respected: Age, Gender, Skin Color, Disability, or Religion

Scenario	Type of Difference
1. A school creates a ramp entrance alongside stairs so all students can enter the building easily.	
2. Students of all skin colors are given equal opportunities to be class leaders.	
3. A sports team welcomes both boys and girls to try out based on their skills.	
4. A community center holds events that celebrate different holidays from various faith traditions.	
5. A library creates special sections with books appropriate for different age groups.	

Taking Action For Equality Read each situation and write what you could do to promote equality.

1 You see that only kids who are good at sports get picked to help with school events.

2 Your friend makes a joke about someone's accent or the language they speak at home.

3 You see that playground equipment is difficult to use for a student with a physical disability.

Practicing Equality Check the actions you commit to doing to promote equality.
